

## Visual Communications - Tapping Opportunities for Government Funding

Each year the U.S. Federal government awards millions of dollars in grant funding to schools, first responders, healthcare organizations, and other public entities for the purchase of new technologies, such as visual communication solutions, to improve and maintain the performance of public and community services.

TANDBERG, the global leader in visual communication is committed to providing added value to its customers with their Grant Services Program. Through their team of Regional Grant Managers they provide expert guidance and support to Education, Healthcare, and State & Local entities that are searching for funding assistance to help source video conferencing endpoints and infrastructure.

From consultations on available funding sources, to grant application assistance, TANDBERG's highly qualified Grant Services team has extensive experience helping to secure funding for video communication solutions that support vital community programs. The TANDBERG Grant Services experts will help you to find appropriate grant programs and stimulus funding opportunities – including top programs such as RUS-DLT, ILSL, E-Rate, CBJTG, E2T2 and more!

### GRANT SERVICES PROGRAM HIGHLIGHTS:

- Research and identify available funding opportunities, and provide applicant organizations with notification of program timelines and guidance on applying.
- Consult on specialized equipment needs for a variety of environments such as classrooms and distance learning facilities.
- Refer eligible applicants to experienced, qualified grant writers, facilitating the development and submission of grant applications.
- Provide grant support to your staff — assisting with application guidelines, answering common questions and providing valuable tips and feedback.]
- Assist with post-funding procedures to ensure a successful implementation while maintaining program compliance.
- Help devise a total funding strategy, which might include leveraging multiple funding sources to achieve overall desired results.

TANDBERG's Grant Services team can provide advanced industry knowledge to help ensure your overall funding success! And to you, the customer, this service is completely **FREE**. Like the numerous entities they have already assisted, they can help your organization take advantage of these services to acquire video conferencing technology for activities ranging from training and distance learning to telemedicine and emergency preparedness and response.
